Re: Suspension of Admissions

Dear Community Partners,

To allow us to appropriately respond to COVID-19 in a manner that ensures the safety of the individuals served and our staff, Hudson Health Services is temporarily suspending all admissions to its programs, including our inpatient campus and low-intensity residential settings throughout the county, as of **Wednesday, April 1, 2020**. This will allow us to better serve our current patients and provide dedicated and separate spaces, should it become necessary.

Hudson Health Services has put every possible safeguard in place to ensure the safety of our current patients and staff. We plan to continue providing services to all patients currently in our programs, in all of our locations, until it is appropriate to discharge. Our goal is to make sure that every patient leaving our facilities has a well-formulated aftercare plan.

We understand the potential difficulties created by suspending admissions. However, after careful consideration, we believe this to be the best course of action under the current circumstances. Our number one priority at this time is providing a safe environment for our patients and staff. Once we feel it is safe to do so, we will communicate with you immediately and resume admissions.

Thank you for your patience and understanding during this time.

Sincerely,

Leslie Brown
